

Mahtab Chowdhry

chowdhury22205101076@diu.edu.bd | +8801644605439
Daffodil Smart City, Birulia, Savar, Dhaka-1216

Professional Summary

Dedicated undergraduate researcher in Artificial Intelligence and Intelligent Systems with strong interests in deep learning, computer vision, explainable AI, and intelligent healthcare technologies. Experienced in developing and evaluating AI-driven solutions for medical imaging, smart agriculture, UAV-based sensing, and disease prediction systems through collaborative research and real-world projects. Skilled in building efficient and interpretable machine learning models, conducting experimental analysis, and contributing to peer-reviewed international conference publications. Passionate about applying research and innovation to create practical, scalable, and socially impactful technologies for real-world challenges.

Work History

Secretary of Research and Innovation, *February 8, 2025—January 2026*
AR/VR & Game Development Lab, Daffodil International University, Dhaka, Bangladesh

- Professional and Academic Development
- Assisting in taken Sessions on Research Strategies & Writing
- Responsible for affordable AR implementation and Evaluation In Bangladesh Test Case

Education

Bachelor of Science *2022 – Present*

Daffodil International University, Bangladesh.

Major: Computer Science

Thesis Project: CNN-Tokenized Compact Transformer with Capsule Routing for Brain Tumor Detection.

CGPA: 3.92

Higher Secondary School Certificate *2019 – 2020*

Chittagong Govt. Model School & College, Bangladesh.

Major: Science

GPA: 5.00

Secondary School Certificate *2017 – 2018*

Kazem Ali School & College, Bangladesh.

Major: Science

GPA: 5.00

Academic Achievements

- Received Merit-Based Academic Waiver in all semesters for outstanding academic performance at Daffodil International University.

Projects

- Voice Of Bangladesh
- Blood Management System
- Hotel Management System
- Food Delivery App

Academic Activities & Competitions

- **Prompt Battle 2025** Participated in an AI prompting and problem-solving competition focused on creativity, critical thinking, and effective AI interaction strategies.
- **Unlock The Algorithm 2024** Competed in a programming and algorithmic problem-solving contest emphasizing logical thinking and coding efficiency.
- **Take Off 2022** Participated in a competitive C programming contest designed to evaluate fundamental programming and analytical skills.
- **IOT FEST 2022** Took part in an Internet of Things (IoT) innovation event focused on smart technology, embedded systems, and real-world automation solutions.

Technical Skills

- **Programming Languages:** Python, C++, Html, CSS, PHP,SQL
- **AI/ML Frameworks:** TensorFlow, PyTorch, Scikit-learn
- **Tools:** Jupyter Notebook, VS Code, LaTeX, Power BI, Excel
- **Natural Languages:** Bengali (Native speaker), English(2nd Language), Hindi (Listening and Speaking), Urdu (Listening and Speaking)
